

How can we help you?

# IoT+ SAFARI: SERVICE OVERVIEW

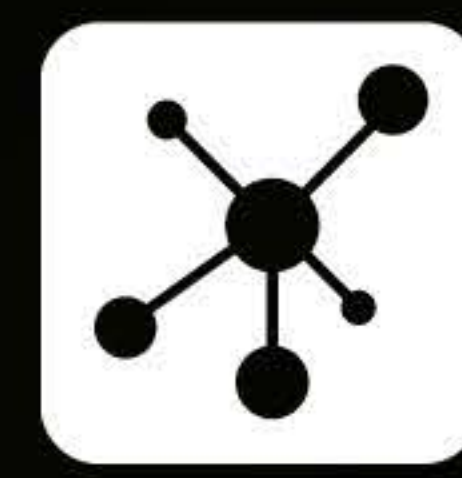

## STEP 1: CHALLENGES & GOALS

To build a tour that suits your purposes, we need to know what challenges you face and what you want to achieve.

## STEP 2: SCREENING OUR NETWORK

We scan our network of startups, corporations, and our contacts in politics and science for the perfect match.

## STEP 3: INDIVIDUAL AGENDA

Once we find matching touchpoints, we will connect you with the right contacts in IoT for you to best experience future technologies.

## IoT KICKOFF

Along with an overview of trends and topics on IoT, our business game gives you a simple introduction to IoT and to possible applications in your field or product.

This format is available **in person** or **virtually** – from anywhere in the world.

## GUIDED TOURS

Get a behind-the-scenes look at hubs, factories, companies, offices, and startups that use IoT to both increase productivity, optimize costs, and use data and UX to improve their processes. Your visit will include extensive Q&A and networking sessions.

Duration:  
1 – 4 hours per visit

## STARTUP MEET & GREET

Meet founders and managing directors of innovative IoT startups. We offer the perfect setting to learn about applications of IoT, business models, startup culture, and new ways of working. This type of event includes a Q&A and networking session.

Duration:  
30 – 90 minutes per startup

## OUR WORKSHOPS

Take your first steps in IoT in our workshops. Together, we assess existing products or processes in your company and identify opportunities for optimization. Based on this, we recommend suitable partners and projects.

Duration: 4 – 8 hours per workshop

## NETWORK & INVESTMENT DINNER

Meet founders from relevant IoT startups in a private setting to network and discuss potential collaborations.
